

# Saravana Priyan T

Aspiring Network Security Analyst  
8667416949 | sp49sec2049@gmail.com

## EDUCATION

### VELAMMAL ENGINEERING COLLEGE

B.E IN CSE - CYBERSECURITY  
Expected .2027 | Chennai , IN  
Cum. GPA: 8.01 / 10.0

### VELAMMAL SCHOOL

Grad. MAY 2023 | Chennai, India

## LINKS

Linkedin: Saravana101  
Github: Saravana-sec  
Tryhackme: Saravana0x1  
Bugcrowd: Pw34ble201

## CERTIFICATION

Comptia Pentest+ Tryhackme | 2025  
Google Cybersecurity Professional | 2024  
Certified Ethical Hacker (CEH)  
Problem Solving (Intermediate)  
Cybersecurity Fundamentals (IBM)  
Networking Basics | 2024  
Cybersecurity Analyst Job Simulation (Forge)  
Introduction to Cybesecurity (Cisco)  
Problem solving (Basic)  
CSX - Cybersecurity Fundamentals

## TECHNICAL SKILLS

Penetration Testing and Bug Bounty  
Operating Systems Installation and setup  
Hardware Electronics (IOT)  
Wireshark, Maltego, Metasploit framework  
Network Security and Honeypot Server  
Computer Graphics + Practicum  
(Research Asst. & Teaching Asst 2x)  
Linux Security Tools and Scripting  
N8N Workflow Automation

## SKILLS

### PROGRAMMING

Over 500 lines:

Java • Python

Over 100 lines:

Rust • React • PHP

Well-Known:

• ArchLinux • Android • Kali Linux

## EXTRA-CURRICULAR ACTIVITIES

### VICE PRESIDENT - CYBERCOM | INTER - COLLEGE CYBERSECURITY CLUB | MEMBER OF BOARD

Oct 2024 – Present | chennai, IN

- Designed and implemented advanced for cyber security Learning, resulting in a 30% increase in operational efficiency.
- Led architected and deployed **advanced cybersecurity learning pipelines** integrating real-world tools such as SIEM platforms and threat-hunting labs.
- Led a group of 60 engineers in developing scalable learning of cyber security, ensuring knowledge with ethical objectives and regulatory requirements

### DEDSEC - CTF TEAM | OPERATION ASSOCIATE - DEDSEC X01

April 2025 – Present. | chennai , IN

- Secured 7th place out of 52 teams at the Final Trace 24-Hour CTF hosted by CYSCOM VIT Chennai and Fraternity of Young Innovators as part of Team DedSec.
- Secured 37th place as a team and 50th individually in Our first appearance at ACNCTF '25 by Amrita Cybernation, and many other CTF competition.

### NOCTIVUS SYMPO | WORKSHOP CONTRIBUTOR AND LEAD OF TOOL EXPO (IOT)

July 2025 - Aug 2025 | chennai , IN

- I served as the Lead for the Tools Expo, where myself and my team members showcased and demonstrated advanced cybersecurity and hacking tools..
- Interactive sessions on hardware-based security testing platforms such as ESP32, ESP8266, Arduino boards, and the ATtiny85 payload device.

## PROJECTS

### ESP-32 ROGUE WI-FI ACCESS POINT FOR DEAUTH

July 2025 - July 2025 | Chennai, IN

Developed an ESP32-based Rogue Wi-Fi Access Point capable of Evil-Twin SSID cloning, beacon flooding, and deauthentication simulations using ESP32, ESP8266 (ESP-8820), and ATtiny85 with controlled fake Wi-Fi networks.

### SSH HONEYPOT SERVER

Nov 2025 – Dec 2025 | Chennai, IN

Developed and deployed an Advanced Threat Intelligence Platform utilizing a custom Python-based SSH honeypot built with Twisted's Conch framework, designed to meticulously emulate the SSH-2.0 protocol. This sophisticated deception successfully mimics the SSH handshake including Key Exchange and KEX negotiation to lure attackers and sustains their engagement by implementing a fake command-line interpreter.

## AWARDS

2025 7th/52

2025 127th/972

2025 37th/134

2025 National

2025 7th/53

2025 National Finalist

CYSCOM VIT Chennai - Final Trace CTF COMP

K17 CTF By UNSW Security Society (SecSoc).

ACNCTF '25 CTF COMP by Amrita Cybernation

CTF By Indian Army Terrier Cyber Quest '25

Flag rush 2.0 By New Prince Shri Bhavani College.

Smart India Hackathon (SIH) 2025
